

SCHEME TO MAKE OFFICE

Job Put Up to Create Place For Dirty Cur Said Nottingham

"This provision in the Chapin bill to appoint the commission by a board was never considered in the committee room; whoever says it was is a falsehood. It was the act of three revolutionary members of the house committee who went back on their agreement to support the compromise Bingham bill who concocted this plan in order that a job might be made for a dirty cur."

This was a part of the denunciation that was given to the first section of the Chapin bill by Senator Nottingham yesterday afternoon in the senate when the Bingham bill was under consideration. This is known as S. B. 129 and is identical with the Chapin bill that was passed by the house except that the Chapin bill provides that the commissioners shall be appointed by a board composed of the governor, the secretary of state and the state treasurer. The Bingham bill provides that the commission shall be appointed temporarily by the governor.

The Bingham bill was the result of a compromise that was made in joint committee; the senate members being unanimously in favor of the permanent appointment by the governor and the house members declaring in favor of an elective commission. The Bingham bill was the compromise measure that all agreed to.

After this had been settled three of the members of the house committee being a minority of the joint committee got together outside the committee room and drew up what is known as the majority report in the house but what was really a minority report of the joint committee. It is said in the lobby that this brilliant scheme emanated from the fertile brain of G. A. Westgate, chairman of the Republican state central com-

mittee and that its chief purpose was to provide a place for that political war horse. It is also charged that Speaker Davey favored these revolutionary tactics and that the plan to create a board to appoint the commission was sprung on the house without being considered in the senate, with his full approval.

When S. B. 129 was read for the third time its enemies began to filibuster. Senators Beach and Bailey were particularly active and motions to indefinitely postpone, to lay on the table and to go into the committee of the whole were successfully voted down and the whole bill was put on its final passage.

After Senators Bingham, Bailey, Beach and Malarkey had made speeches on the measure just referred to. The senator said that in fairness the senate bill should be enacted and he had assurances that it would also pass the house.

Senator Bingham made one of the able speeches of the session in favor of the bill. He said that it was a compromise measure agreed to in order to conciliate the house members of the joint committee who desired an elective commission; that he knew his constituents wanted a commission appointed by the governor who should have the power of removal. He said he had over two hundred letters from his constituents asking that the Bingham bill be enacted and that not one of them favored either an elective commission or one appointed by the board.

He said the board provision in the Chapin bill was never considered in committee and he strongly objected to three men on a house committee dictating to the senate and to a great majority of the people of this state what they should do.

"I want this law in a shape," he said, "so that I can say to the governor of this state: 'You shall put competent men on this commission and we will hold you personally responsible for their official conduct'."

When the vote on the final passage of the bill was taken nearly every member who voted explained his vote in a manner of an apology and instead of explaining argued for the Chapin bill. Johnson who is said to oppose any kind of a commission made a long and argumentative speech. Coke explained and so did Hart and Smith, of Marion.

The ayes and noes on the final

passage of the Bingham bill follow: Ayes—Bingham, Booth, Bowerman, Caldwell, Coshaw, Hedges, Kay, Malarkey, McDonald, Miller of Linn, Miller, of Linn and Marion, Mollit, Nottingham, Schofield, Smith of Umatilla, Wright, President Haynes, 17.

Noes—Bailey, Beach, Coke, Cole, Hart, Hodson, Johnson, Laughery, Laycock, Sichel, Smith of Marion, Wheelodon, 12.

Soon afterwards the Chapin bill came up from the house in regular order and Beach and Bailey tried to get it to a vote but their tactics were defeated by Malarkey, Nottingham, Booth and Bingham and the Chapin bill was laid on the table.

MAJORITY GAIN FIVE VOTES

House Promptly Law Bingham Bill on Table By 32 to 25

When the senate laid the Chapin bill, as amended by the house and passed, upon the table and adopted the Bingham bill, which was identical with the exception that it contained in section 1 the provision giving the governor the sole appointing power of the railroad commission instead of the board as the house elected to provide, it reckoned without its host if it had any idea the house would swallow the dose without entering at least some kind of a protest. As a matter of fact the house, or at least the majority headed by Speaker Davey, was quite equal to the occasion and when the Bingham bill was passed up to the house for disposition the house did not concur in the action of the senate.

In stead the house, which was a great surprise to the senate lobbyists which thronged the floor of the lower branch of the assembly and exercised every effort to induce the members to stand by the senate action, promptly voted to lay the bill on the table and the action was suited to the word by depositing the instrument upon the furniture by the decisive vote of 32 to 25. It developed that, during the interim, the Davey followers had gained strength of five votes from the previous day's results and when the vote was counted it was found that the names of Belknap, Beveridge, Beutgen, Connell and Knowles were enlisted with the majority.

Speaker Davey and the house supporters of the contention that the state board should have the appointing power now take the position that, inasmuch as the house bill was before the senate in its altered condition before action was taken upon the Bingham bill, and laid on the table in favor of the Bingham bill, it was up to the senate to take up the house bill and take action upon it before the house was required to take any further steps in the matter. As the situation now stands it is certainly most ludicrous and there is a question of which will be the first to take the initiative in determining the final result. It is reported, however, that the majority forces of the house are working quietly but determinedly upon the problem and that they will force the issue upon the senate by suddenly calling the Bingham bill up from the table, amending the first section to conform to their demands and pass both bills up to the senate for consideration.

Which ever way the matter turns it is now certain that the railroads are holding the winning hand since, if they can keep the two houses at variance, which is their game, there will be no railroad legislation this season. On the other hand, if the bill is passed up to the governor as amended by the house it is most certain that he will veto it and pass it up to the people for final decision and, by this means the railroads will have at least gained much time and lost nothing. Some interesting developments are expected to materialize within the next day or two when some interesting results are anticipated but the opposing sides will have to resort to a conference and count noses before anything definite can be expected.

Two More Captured

Deputy Sheriff's Minto and Esch captured two more of the truants from the reform school yesterday afternoon in Mission Bottom. They had a lively chase, but eventually outran the boys. Wesley Kiel and Fred Rice were the two returned last evening. Several others are still at large.

TO CURE A COUGH.

A noted authority on lung trouble advises that as soon as a cold is contracted, the following simple treatment should be given. The ingredients can be purchased from any prescription druggist at small cost and easily prepared in your own home. It is said to be so effective that it will break up a cold in twenty-four hours and cure any cough that is curable.

Take a half ounce Virgin Oil of Pine (Pure), two ounces of Glycerine, and eight ounces of good Whiskey. Shake well and take in teaspoonful doses every four hours.

Be sure that the Virgin Oil of Pine (Pure) is in the original half-ounce vials, which are put up expressly for druggists to dispense. Each vial is securely sealed in a round wooden case, with engraved wrapper, with the name—Virgin Oil of Pine (Pure), guaranteed under the Food and Drugs Act, of June 30, 1906, serial number 451, prepared only by Leach Chemical Co., Cincinnati, Ohio—plainly printed thereon. Only the adulterated oils are sold in bulk; these create nausea and never effect the desired results.

A HUNDRED POUNDS OF BREAD contains 80 pounds of nutriment, 100 pounds of meat only 35 pounds of nourishing material. That's why bread is called "the staff of life." Look at the difference in cost and get from Ullom's bakery wholesome bread that not only supports life but is appetizing and delicious to the taste.

THE BEST "STAFF OF LIFE" YOU EVER SAW

Is Ullom's bread. It's fresh daily, wholesome always, nourishing, strengthening and fit for the whole family. One thing more while you're reading—it's good to the taste. Do you know of any good reason why you don't buy Ullom's bread? No? Then why don't you buy it?

Those Woolen Blankets

The heavy ones that every man uses during the cool months for his clothing, are awkward things to handle at home. Why not send them to the laundry when they need washing?

You'll not only save yourself a lot of hard work, but you will have them returned to you in a better condition than if you tried to wash them at home. We make them cleaner, sweeter, fluffier, and do not shrink them. The truth of the matter is, that any man who will compare a laundered blanket from The Salem Steam Laundry, and a home washed one, cannot help but notice the difference. The home washed one will be discolored, feel sticky, look lumpy and smell badly, while the one sent to the laundry will be perfectly clean, sweet and fluffy. Yours for superior work.

Do You Like Honest, Square Dealing?

Dr. Pierce's world-famed medicines are put out under the belief that publicity is the best possible guaranty of merit, and that the most intelligent people generally want to know what they take into their stomachs, whether it be as food, drink or medicine. Although it was a bold step to take, and quite out of the usual practice of makers of proprietary medicines, yet Dr. Pierce, some time ago, decided to publish broadcast and on all his bottle-wrappers all the ingredients entering into the composition, or make-up, of his celebrated family medicines. A square deal is therefore assured every one using his medicines, for one knows exactly what he or she is paying for when purchasing them, since every ingredient is published in plain English on the bottle-wrappers and the correctness of the same attested under solemn oath. These several ingredients are selected from among the very best known to medical science for the cure of the various diseases for which these medicines are recommended.

The most eminent and leading medical teachers and writers of all the several schools of practice have endorsed each of the ingredients entering into Dr. Pierce's medicines in the strongest possible terms. The makers of Dr. Pierce's medicines believe that intelligent people do not wish to open their mouths like a lot of young birds and gulp down whatever is presented to them, either in the way of food, drink or medicine, without knowing something of the properties and harmless character of the agents employed. They believe that health is too sacred a heritage to be experimented with and that people should not take medicines of the composition of which they are kept in ignorance. Dr. Pierce's medicines are made wholly from the roots of plants found growing in the depths of our American forests. They are so compounded that they cannot do harm in any case, even to the most delicate woman or child. By open publicity Dr. Pierce has taken his medicines out of the list of secret nostrums, of doubtful merit, and made them remedies of known composition. They are therefore, in a class all by themselves, being absolutely and in every sense non-secret.

By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not afraid to subject them to the fullest scrutiny.

There is a badge of honesty on every bottle of Dr. Pierce's medicines in the full list of its ingredients duly attested as correct under solemn oath.

No other medicines put up for general use through druggists can make claim to any such distinction, and none other than Dr. Pierce's medicines have any such professional endorsement of their ingredients. Such professional endorsement should have far more weight with the afflicted than any amount of lay, or non-professional, endorsement, or testimonials.

Of course, the exact proportion of each ingredient used in Dr. Pierce's medicines as well as the working formula or manner of preparing the same, and the specially devised apparatus and appliances employed in their manufacture, are withheld from publicity that Dr. Pierce's proprietary rights may be fully protected from such unprincipled imitations as might be piratically inclined.

The preparation of these medicines without the use of a drop of alcohol, is

generally employed and yet so harmful, in the long run, to most invalids when its use is long continued, even in small doses, cost Dr. Pierce several years of careful study and labor, with the aid of skilled pharmacists and chemists to assist him. Naturally, he does not care to give away his scientific and exact processes for preparing these medicines, but he does want to deal in the most open manner with all his patrons and patients, and under this frank, open and honest way of dealing, they may know exactly what they are taking when using his medicines.

What Do They Cure? This question is often asked concerning Dr. Pierce's two leading medicines, "Golden Medical Discovery" and "Favorite Prescription."

The answer is that "Golden Medical Discovery" is a most potent alterative or blood-purifier, and tonic or invigorator and acts especially favorably in a curative and healing way upon all the mucous lining surfaces as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder, curing a large per cent. of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrhal dyspepsia), bowels (as mucous diarrhoea), bladder, uterus or other pelvic organs. Even in the chronic or ulcerative stages of these affections, it is often successful in effecting cures.

The "Favorite Prescription" is advised for the cure of one class of diseases only—those peculiar weaknesses, derangements and irregularities incident to women. It is a powerful yet gently acting invigorating tonic and strengthening nerve. For weak, worn-out, over-worked women—no matter what has caused the breakdown, "Favorite Prescription" will be found most effective in building up the strength, regulating the womanly functions, subduing pain and bringing about a healthy, vigorous condition of the whole system.

Women suffering from diseases of long standing, are invited to consult Doctor Pierce by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Medical Adviser (1000 pages) is sent free on receipt of 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound copy. Address as above.
